How do polar bears stay warm with the freezing temperatures, icy water, and relentless wind in the Arctic? What keeps a polar bear warm when its natural habitat is so cold? We will investigate and see what keeps these big animals and other Arctic critters warm. Today we will explore how blubber keeps polar bears warm through the magic of science and the use of a few household items.

#### Exploring Foods From Around The World

---

Food is an important part of different cultures, and can be a fun way for our campers to explore the world around us. Today, we will be picking a snack we're interested in from around the world. After we explore and celebrate the recipe's origins, we'll roll up our sleeves to prepare a tasty treat.

### Thursday, January 4

#### Westfield Heritage Village

---

Today our campers will visit a living history museum and conservation area. As one of Ontario's most interesting historical destinations, it is a stunning collection of over 35 restored buildings placed within 204 hectares of conservation land featuring woodlands, meadows and trails.

### Friday, January 5

#### Sky Colour

---

Today we will discover the book Sky Colour (written by Peter H. Reynolds) and follow along with the story of Marisol as she sets out to paint the sky without the colour blue. Using Marisol's story as our inspiration, we will create our own murals discovering the limitless possibilities of creativity.
