MARCH BREAK 2023

March 13 -17

March Break '23

Monday, March 13 Welcome to Camp!

For our first day, we are getting to know one another. Campers will enjoy a variety of ways to learn more about one another, featuring Find a Friend Bingo where we will seek out others who have unique and diverse experiences. Campers will discuss what it means to them to be a kind friend and ways to help one another. We will then create a camp mural using our new found knowledge with a variety of art materials.

Tuesday, March 14 Bronte Creek Maple Sugar Festival

Today, our campers will be taking a chartered bus to Bronte Creek Conservation Area. We'll explore where maple syrup comes from and get a glimpse into how harvesting maple syrup has changed throughout time. We'll enjoy a horse-drawn

wagon ride as and a walking tour through the maple sugar bush. **Please note, this outing is weather permitting!*

Wednesday, March 15 Nature Wind Vanes

Calling all scientists. Today, we will become inspired by the book *Feel the Wind*. We will then have the opportunity to explore our outdoor space to gather natural materials to create our very own weather vanes.

Thursday, March 16 Let's Play with Our Food

Inspired by our maple sugar bush experience, we will create our very own maple yogurt smoothies to enjoy. Campers will choose from a variety of locally grown fruit and berries as they craft their perfect treat. We will then burn off those natural sugars with a kick ball tournament outdoors.

Friday, March 17 How Many Species of Trees and Plants Can We Find?

Today, campers will explore all the wonders that nature gifts us. Using our tree and plant identifiers, whether buried in snow or in plain view, we will investigate our outdoor spaces and discover all of the biodiversity that our local trees and plants have to offer. We will then roll up our sleeves and do some planting of our own.
